ABSTRACT

This guide provides statistical information concerning services to handicapped children provided by the public schools of South Carolina in 1986-87. Statewide data are reported on the number of teachers and students by category of handicapping condition and program model (self-contained, resource room, itinerant, and other). In addition, data for each school district are provided for: category of handicapping condition and program model, number of teachers of handicapped children, number of teachers by program model, special transportation of the handicapped, flow-through funds awarded under Public Law 94-142, and preschool incentive grants/contracts awarded. Additional data deal with: other personnel employed to provide special education and related services, multi-district educational programs, educational programs in facilities other than public schools, enrollments in in-state institutions and out-of-state institutions, and the Evaluation, Diagnosis and Prescriptive Program. EDUCATION OF THE HANDICAPPED ACT, PART B
RETAINED FUNDS
FY 1987

A contract for Direct Service Delivery was awarded to one (1) state operated program during FY 1987. The purpose of this contract was to provide direct education services to handicapped pupils of legal school age being served within the agency. The funding level was determined by multiplying the child count submitted on December 1, 1985 times the State per pupil amount generated under the flow-through dollars ($266.37). The funds have a contract period July 1, 1986 - June 30, 1987.

Listed below is the child count and funding amount awarded to the agency.

Agency	Child Count	Allocation
Dept. of Mental Retardation	204	$54,341

EVALUATION, DIAGNOSIS AND PRESCRIPTIVE PROGRAM

The State Department of Education, Office of Programs for the Handicapped, has set aside a small portion of the Department's Part "B" funds in order to provide diagnostic evaluations and educational prescriptions for handicapped children exhibiting complex and unusual handicapping conditions. These educational diagnostic evaluations are available through the "Evaluation, Diagnosis and Prescriptive Program" (EDPP) and cannot supplant diagnostic/prescriptive services which are traditionally the responsibility of local agencies.

The diagnostic and prescriptive profiles obtained through this program are designed to be utilized as an aid in planning and implementing individualized educational programs which ultimately accrue to the benefit of the child. Referrals accepted for evaluation are restricted to those children manifesting unusual or complex handicapping conditions.

Diagnostic centers operative during the 1986-87 school year are listed in the chart below with the number of children receiving services.
